DANCE THEATRE OF HARLEM SCHOOL
BUILDING PROCEDURES AND HEALTH AND SAFETY PROTOCOLS
(For School Students and Parents/Guardians)
As of 12/09/2022

The health, safety, and well-being of our artists, staff, students, families, and visitors continues to remain our number one priority. As such, the DTH School will implement the following Building Procedures and Health and Safety Protocols for our 2022-2023 Fall/Spring program.

1. DTH no longer requires full vaccination for students participating in in person classes.

2. Parents/guardians are now able to be in the DTH facility when the Community Risk Level in New York City is medium or low. Daily health screenings using the HealthCheck app are required each day parents/guardians are in the building.

Please note, parent/guardian access may change depending upon the Community Risk Level in New York City and other factors.

3. Students and families will conduct a daily health screening prior to entering any DTH facility. Screenings will be conducted using the HealthCheck app, which includes screening questions.

4. Students and families will arrive to the DTH facility masked and remain masked during class, and in all common areas (lobby, stairways, common bathrooms, any space directly outside of studios, elevator, hallways/walkways).

Please note, this may change depending upon the Community Risk Level in New York City and other factors.

5. Upon arrival, students and families will sanitize their hands and immediately undergo a contactless temperature check. If all clear, students will proceed directly to their dance studio for class. If a student temperature registers 100.4 or higher, he/she will be unable to participate in class and will need to leave the DTH facility.

6. Students should bring their own water to class.

7. If any individual tests positive for COVID, they must isolate for four (4) days and be asymptomatic before returning to DTH. If symptomatic obtain PCR or antigen test; if positive self-isolate 4 days (day 0 is symptom onset). Antigen test on day 4, and day 5. If both negative able to return on day 5. If one is positive, continue to self-isolate until a negative antigen test is obtained or for 10 days.

8. Dance Theatre of Harlem suggests the following in preparation for classes.
   • Make sure you have a digital thermometer at home to monitor your temperature as part of our screening requirements.
   • Have enough CDC-recommended face masks for wear at the Dance Theatre of Harlem School.
   • Have a supply of small bottles of hand sanitizer you can carry with you daily.
   • Wash hands frequently and thoroughly (for 20 seconds, minimum), especially after contact with surfaces and items in public areas, touching our mask, after eating, coughing, sneezing, or wiping one’s nose.
   • Make sure your online enrollment packet includes up-to-date contact information (guardian contacts, emergency contacts, cell phone numbers, emails, etc.).

The pandemic continues to be an ever-changing situation. The DTH School has the right to change its health and safety protocols at any time.

HEALTHCHECK SCREENING APP

The safety of our students, artists, staff, and guests is our top priority as we reopen and resume working at Dance Theatre of Harlem (DTH). To help keep everyone safe, we have partnered with HealthCheck to screen symptoms of COVID-19 before entering the DTH Facility.

HealthCheck is a COVID-19 screening tool available as a mobile app and website. All students and staff coming onsite will answer a handful of COVID-19 symptom questions to ensure they do not exhibit risk signals. After answering those questions, you will receive a green/yellow/red color status indicating your level of risk based on your responses.

Your answers are protected, and HealthCheck follows strict data privacy laws like HIPAA to ensure the security of your data. The summary information is collected and presented in a dashboard that our HealthCheck Administrator can use to track risk and take preemptive actions. No one will see your specific symptoms or health history.

If you have one or more symptoms, the DTH HealthCheck Managers will be alerted of the color status. Managers will not know which symptom triggered the email. In addition to our other safety protocols, this process helps ensure all individuals are safe.

Using HealthCheck is simple and takes under one minute. We are asking you to follow these steps to set up and use the app:

- During setup, please input the registration code: rigMC-m%. This is the registration code for the DTH School Facility.
- Before coming to the DTH Facility, answer the screening questions in the HealthCheck app or website.
- Take the appropriate action based on the results of the screening, as follows:
  
  - You are eligible to come to DTH.
  - Your DTHS HealthCheck Manager has been notified. You must consult the HealthCheck Manager to confirm coming to DTH.
  - Your DTHS HealthCheck Manager has been notified. Please do NOT come to DTH.

To learn more about HealthCheck, please visit www.stratumhealth.io. We have included information about how to download, set up, and use the HealthCheck app.
STEP 1. GETTING STARTED

Download the App in the Apple App Store or the Google Play Store or use the web interface at: https://healthcheck.stratumhealth.io.

STEP 2. REGISTER AS A NEW USER

Open the mobile app and have the user click Sign Up as circled in red.

STEP 3. FILL IN THE SIGN-UP SHEET AND INSERT THE DTH-SCHOOL REGISTRATION CODE IN THE FACILITIES SECTION.

REGISTRATION CODE: rigMC-m%
STEP 4. ACTIVATE ACCOUNT WITH EMAIL LINK

Open the mobile app or web browser to sign in to your HealthCheck account with your email and password. Use the same email address that you received the activation email from. If you don’t remember your password, click **PASSWORD** as circled in red to reset your password.

STEP 5. LOGIN WITH YOUR EMAIL AND PASSWORD.

Open the mobile app or web browser to sign in to your HealthCheck account with your email and password. Use the same email address that you received the activation email from. If you don’t remember your password, click **PASSWORD** as circled in red to reset your password.
STEP 6.  LOGIN WITH YOUR EMAIL AND PASSWORD.

You can add child by clicking on the profile picture, and then click on “Children”. Once children are added, you will select the profile picture to perform HealthCheck for children.

STEP 7.  COMPLETE HEALTHCHECK PRIOR TO STUDENTS ATTENDING THE DTH FACILITY

Download the App in the Apple App Store or the Google Play Store or use the web interface.

If you have any questions, you can contact the DTH School, school-info@dancetheatreofharlem.org.
